

Andrew Bakareke

Software Engineer

Profile

I am an enthusiastic and dedicated software engineering student with a strong interest in developing and programming. Detail-oriented and quality-focused, I strive to write clean and maintainable code. As a continuous learner, I am always eager to expand my knowledge. With excellent communication and collaboration skills, I thrive in team environments. My passion for leveraging technology to create innovative solutions is coupled with strong problem-solving and debugging abilities.

Education

Adventist University of Central Africa (AUCA) | 2022-current

Bachelor of Science in Information Technology

Byimana School of Science | 2018 – 2021

Secondary School Diploma

Internship

Work Experience

Talent4StartUps training at ICT Chamber May2024-June2024

Mobile Application Development

Engaged in hands-on projects involving React Native and TypeScript, leading to the development of Travel Mobile App, News App, and other team projects.

This experience honed my skills in mobile app development, equipping me with practical knowledge and competencies.

Major House Ltd | August2024 – October2024

Worked on "Be Okay," a consultation app enabling communication between doctors and patients.

Developed "Open Way," a navigation app utilizing map APIs for efficient route mapping.

Gained hands-on experience in React Native, enhancing my expertise in mobile app development and API integration.
